

STIVAL

Winery Profile: The family owned Stival Winery is located in the north-eastern part of Italy in the Veneto Region. It is very common in Veneto to see Italian names like Stival that do not end with a vowel. Father Mario Stival and sons Mauro and Giovanni oversee all phases of the winery's operation. Mauro and Giovanni are both oenologists and graduates of the school of Viticulture in Conegliano. Being family owned and operated assures the wines high quality. Most wines competing at this price are produced by large corporations or co-operative growers where no one person oversees the quality of the product and puts his name on the bottle. Today's market demands high quality at an affordable price. Stival delivers both.

Stival Pinot Grigio

The Venetos most popular grape, Pinot Grigio, makes this wine pleasant, crisp and very refreshing.

A light straw yellow color with a characteristic bouquet of fruit and acacia blossoms. Light and dry, this wine is easy to drink on its own or with any lightly flavored dish.
